

Lithium storage for reliable home power backup (lead acid replacement)

**Ezivolt 12.8V,100Ah
power : 1.28kW
capacity : 1.28 kWh**

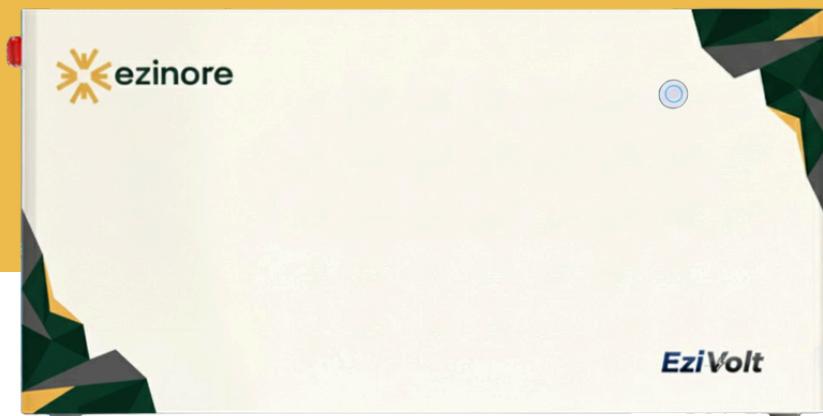

- Fast Charging
- Zero maintenance
- Lifespan upto 10 years
- No Noise
- Higher efficiency than Lead acid batteries

- Compatible with both lead acid and lithium inverters.
- Pack level safety protection
- Precise thermal runaway control
- Easy installation
- Wall and floor mountable

Product Information

The *Ezivolt 12.8V,100Ah* Home Storage Battery is a smart, eco-friendly upgrade for your home power needs. Designed with advanced lithium technology, it lasts up to 10 years, giving you reliable backup during power cuts or nighttime use. Unlike traditional lead-acid batteries, it is maintenance-free, lightweight, and charges faster. Best of all, it can easily replace your old lead-acid inverter battery — just connect to your old inverter and use without hassle. With built-in safety protection against overheating and overcharging, this compact, quiet, and clean energy solution ensures your lights and appliances always run smoothly, while saving you money over time.

Ezivolt 25.6V LFP battery

Technical Data

Parameters	Values for 25.6V, 100Ah	Units
Nominal Voltage	12.8	V
Rated Capacity	100	Ah
Rated Energy	1.28	kWh
Charging Voltage	14.6	V
Maximum Charging current	50	A
Maximum Discharging current	70	A
Full Discharging Voltage	10	V
Operating Temperature	0 - 45	°C
Cooling Method	Natural Cooling	A
Cycle Life	≥ 4000	cycles
Weight	14	Kg
Dimensions	400 X 156 X 214.6	mm
Mounting type	Wall and floor mountable	-
Inverter compatibility	Upto 1kVa	-

Lithium storage for reliable home power backup (lead acid replacement)

**Ezivolt 25.6V,100Ah
power : 2.56kW
capacity : 2.56 kWh**

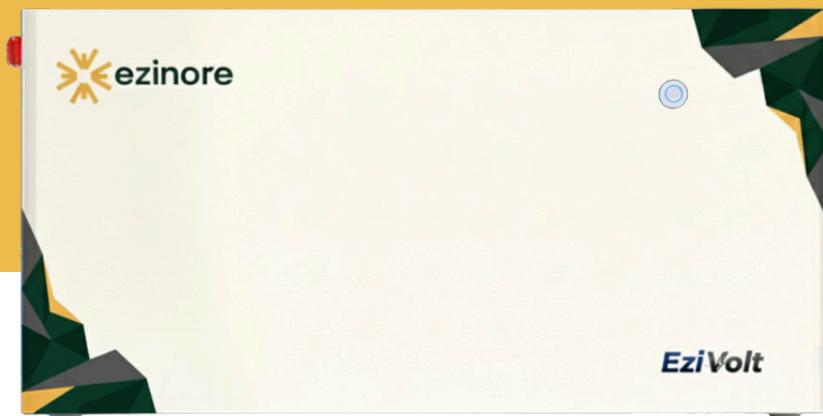

- Fast Charging
- Zero maintenance
- Lifespan upto 10 years
- No Noise
- Higher efficiency than Lead acid batteries

- Compatible with both lead acid and lithium inverters.
- Pack level safety protection
- Precise thermal runaway control
- Easy installation
- Wall and floor mountable

Technical Data

Parameters	Values for 25.6V, 100Ah	Units
Nominal Voltage	25.6	V
Rated Capacity	100	Ah
Rated Energy	2.56	kWh
Charging Voltage	29.2	V
Maximum Charging current	50	A
Maximum Discharging current	80	A
Full Discharging Voltage	21.6	V
Operating Temperature	0 - 45	°C
Cooling Method	Natural Cooling	A
Cycle Life	≥ 4000	cycles
Weight	24	Kg
Dimensions	463.65 X 225.2 X 219.1	mm
Mounting type	Wall and floor mountable	-
Inverter compatibility	2kVa	-
